

# COOPH SIZE CHART FOR STRAPS

If you know your size, you're ready to order! If you're not sure about what strap size you need, it's a good idea to take your measurements beforehand in order to ensure that your new strap fits perfect.

Default strap length is 100cm (39,37inch) which is great for wearing the camera on your neck and wrapping on your wrist. If you want to wrap the rope around your wrist, do not exceed 100cm. However, it is advisable to take a hand strap if you want to wear the strap exclusively on your wrist.

If you want to wear it under the arm or across your body, get something longer than 110cm.

But if you want to be sure, hang a tape measure around your neck as you would a camera strap and find your optimum length.

Our female model is 160 cm (5'ft) tall.  
Our male model is 180cm (5'11ft) tall.
